RAB LUIS B. BALTAZAR

Manila, Philippines | +63 910 086 9877 | rabluis.baltazar04@gmail.com | linkedin.com/in/rab-luis-baltazar-932937414

PROFESSIONAL SUMMARY

BSIT candidate at Universidad de Manila (graduating 2027) seeking an IT internship or OJT opportunity in networking and cloud. Hands-on Azure experience deploying a virtual machine, hosting a website on IIS, and automating a VM shutdown with an Azure Automation runbook; preparing for the AZ-900 exam. Additional project experience in functional testing, system documentation, and UI/UX design. Completed Cisco networking and cybersecurity training; Civil Service Professional Examination passer.

TECHNICAL SKILLS

Cloud Computing: Microsoft Azure (Virtual Machines, Automation Accounts, Runbooks, Schedules, Resource Groups); Azure Fundamentals concepts (compute, networking, storage, identity, governance)
Systems: Windows Server basics, IIS web hosting, Server Manager, Remote Desktop (RDP)
Networking: TCP/IP fundamentals, IP addressing, network fundamentals, Cisco Packet Tracer
Testing and Documentation: Functional testing, test case preparation, system documentation
Web and Design: Web development fundamentals (HTML/CSS), UI/UX design, Figma

EDUCATION

Bachelor of Science in Information Technology | Universidad de Manila, Manila | Expected 2027
Relevant coursework: Networking, Cloud Computing, Cybersecurity, Web Development, Software Development, Systems Analysis and Design, Machine Learning

PROJECTS

Azure Automation: Scheduled VM Shutdown | Microsoft Azure | 2026

- Built an Azure Automation account and published a graphical runbook that stops a virtual machine on a schedule set to Philippine Time.
- Linked the schedule to the runbook with its parameters and tested it; the VM stopped (deallocated) as expected.
- Documented each step with screenshots.

Azure Virtual Machine and IIS Web Hosting | Microsoft Azure | 2026

- Deployed a Windows virtual machine in Azure and connected to it through Remote Desktop.
- Installed the IIS Web Server role and hosted a personal portfolio website (HTML/CSS), accessible through the VM's public IP address.
- Documented the process in an 8-step guide with screenshots.

BRGY-AI - Barangay Legal Assistance System | Capstone Project | In Progress

- Contributed to a mobile-based system for barangay legal information and document assistance.
- Prepared system documentation and test cases; performed functional testing to verify system features.

BICMS - Barangay Issuance and Complaint Management System | UI/UX Designer | Figma

- Designed user interfaces in Figma for a web-based barangay certificate and complaint management system.
- Supported system documentation and improved interface clarity and usability. Live project: bicms.vercel.app

Kotlin Tourney | UI/UX Designer and Story Creator | Figma

- Designed the interface of an educational game that teaches beginners Kotlin programming.
- Wrote the game's storyline to guide players through the learning flow.

CERTIFICATIONS AND TRAINING

- Microsoft Azure Fundamentals (AZ-900) - In Progress
- Networking Basics - Cisco | 2026
- Junior Cybersecurity Analyst Career Path - Cisco | 2026
- Civil Service Professional Examination Passer - Civil Service Commission | 2024

WORK EXPERIENCE

Student Program on Employment (SPES) | Barangay Office, Manila | 2025

- Validated senior citizens' identification documents to support financial assistance eligibility checks.
- Assisted with financial assistance distribution and prepared liquidation-related documents.
